WESTERN SHELTER

SHELTER SYSTEM ID

SHELTER SYSTEM ID

During an inter-agency response, identification of each responding team's shelter can quickly become essential to the success of the mission. With Roof and Door ID, you can ensure that your shelter or complex is easily identifiable both on the ground and from the air. Your logo or name is reproduced as a 4-color digital ID printed on exterior vinyl and permanently attached to the shelter roof and/or doorways.

SPECIFICATIONS

Full color digital print of ID permanently attached to the shelter roof or door. Easily identifiable from the ground or air.
