

# DECON PROPORTIONER

Part Number WS-DP

Precisely Inject Chemical Additives To Charged Hose

**WESTERN  
SHELTER** SYSTEMS

ISO 9001:2008 Registered Company

## Key Features and Benefits

- Designed to inject a precisely measured chemical additive, regardless of GPM or water pressure
- Percentage of injected solution is indicated on lower pump body shaft for accuracy
- Easily adjusted: rotate the shaft clockwise to reduce injection levels, counter clockwise to increase levels
- Percentage of injection can be adjusted between 2 and 10%
- Solution is stored on board in two five-gallon containers for convenience

## Specifications

Dimensions	26 x 19 x 27"	(66 x 48 x 68.5 cm)
Weight	42 lbs.	(19 kg)
Input and Output Ports	3/4" GHT	
Solution Capacity	10 gal.	(3.7 L)
Injection Percentages	2% and 10%
